UN test documentation for the Lithium ion batteries indicated above is maintained on file at the Milwaukee Electric Tool Corporation headquarters in Brookfield, Wisconsin, USA.

Important note: All transportation of Lithium ion batteries by ground, air, and sea is governed by U.S. and International dangerous goods regulations. These include the following:

- U.S. Department of Transportation (DOT), Pipeline and Hazardous Material Safety Administration (PHMSA): *Hazardous Material Regulations* (HMR)
- Canada Transport Dangerous Goods (TDG): *Transportation of Dangerous Goods Regulations*
- UN "ADR": *European Agreement Concerning the International Carriage of Dangerous Goods by Road*
- UN "RID": *European Agreement Concerning the International Carriage of Dangerous Goods by Rail*
- UN "ADN": *European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterways*
- International Air Transport Association (IATA): *Dangerous Goods Regulations* (DGR)
- UN: International Civil Aviation Organization (ICAO): *Technical Instructions for the Safe Transport of Dangerous Goods by Air* (TI)
- UN: International Maritime Organization (IMO): *International Maritime Dangerous Goods Code* (IMDG)
- UN: *Recommendations on the Transport of Dangerous Goods, Model Regulations*

Prior to any battery shipment, always confirm with your freight forwarder and/or carrier the particular shipping requirements of the current Dangerous Goods Regulations that apply to your battery consignment(s).

Sincerely,
